TRADITION AND INNOVATION

The NOTIQUE portfolio still includes many traditional products you have come to love under the original brand PRESCO PUBLISHING, such as various wall calendars featuring paintings and photographs, work diaries and planners for convenient planning, as well as notebooks and planning calendars for the whole family. Our Teribear, Mucha, Lada, and Mole collections are still available.

We would like to offer a new range of value-added products – theme-oriented diaries (mental health, self-love), habit journals, journals for houseplant lovers, notepads with original illustrations, and many more design pieces. You will truly enjoy our new products.

WHY NOTIQUE?

In NOTIQUE, we firmly believe that writing on paper still plays a key role – even in today’s fast-paced digitalized world. Paper calms our mind, allowing us to better concentrate. We believe that an idea written in a notepad could be the beginning of something big; that things we write on a piece of paper are easier to remember; that you can get through a hectic day without skipping a beat when you plan it well in your diary; or that confiding in a journal is similar to confiding in a therapist.

In today’s busy world, mental hygiene is more important than ever. The time we spend with others is just as important as the time we spend alone. Such moments allows us to gather our thoughts, get inspired, take a break for a minute or slow down and let our thoughts flow.

NOTE TO SELF

A GREAT WAY TO DISCOVER OUR PRODUCTS

Whether it is a unique material, Exclusive artist or there is another great feature – you will always find about it thanks to the labels and logos on our products and throughout this entire catalogue.

Be on the look-out for these:

PLATINUM COLLECTION

The most Exclusive line of wall calendars – proudly marked with this hard-to-overlook platinum seal – only comprises state-of-the-art photo calendars presenting unique themes on high-quality paper in the most remarkable calendar size we have to offer. To stir the still waters of the wall calendar world, the Platinum Collection always brings some new and interesting perspectives from our – usually Exclusive – artists.

ACTIVITY CALENDARS

You will find plenty of fun for your children in our products marked with this seal! Beautiful, stickers or temporary tattoos included in these products are made to enrich your children's otherwise-kind-of-boring interaction with calendars. In other words – we figured out a beautiful way of making a thing that many kids don't like more enjoyable. Being organized has never been such fun!

MUCHA TRUST

We're proud to have an official license for the work of the world-famous Art Nouveau artist, Alphonse Mucha. The care we give to the products with this logo would make even the great Mucha himself happy. His beautiful paintings need the very best attention to preserve the wow-effect that the originals have – and we have mastered that over the years. We take our Mucha products seriously like nobody else in the industry.

PARTIAL FOILS

We have improved some of our products, adding gold, silver or copper embossing. We mainly use embossed writing and year for our art diaries and notepads, as their hard covers allow the embossing to stand out nicely.

SCENTED

SCENTED CALENDARS

You will enjoy calendars with this designation not only for the attractive photographs but also through the characteristic aroma of lavender, coffee or chocolate. This aromatic calendar trio has been producing a great-scented atmosphere in countless homes and offices around the world for many years now and is gaining in popularity year-after-year.

FSC

Our products bear the Forest Stewardship Council (FSC) label. This certification indicates that the end product comes only from FSC-certified forests. Each of our FSC-certified products – whether it is a calendar, a diary or a notebook – is proudly marked by the FSC logo either on the back or in the inside of our caring products.
