SWISS ARMY KNIVES

VICTORINOX SWISS ARMY KNIFE™

BEST PREPARED TO MASTER EVERYDAY LIFE SITUATIONS

Living up to our legacy as Makers of the Original Swiss Army Knife™, we at Victorinox have made it our mission to best prepare you for everyday challenges through smart and masterful solutions.

That's why, to this day, we continue to craft our iconic knives in Switzerland with uncompromising precision and quality, down to the last detail. Why we use only best-in-class materials and smartly combine versatility with intelligent functionality in compact form. And why every knife comes with tools that are well-thought-out and designed to simply serve their purpose perfectly.

From the very first Swiss Army Knife™ created by our founder Karl Elsener in 1897 to its modern-day descendants, our expertly-selected range of premium products ensures you are always best prepared to master everyday life situations.

Because we truly believe
BEING PREPARED MAKES LIFE BETTER.

Carl Elsener
CEO Victorinox

HISTORY

First Cutlery Workshop

Founder Karl Elsener

Mother Victoria

(VICTORIA)

Carl Elsener, Chief Executive Officer

- 1884** Karl Elsener I opens a knife cutler's workshop in Ibach-Schwyz. His mother Victoria actively supports him in his endeavors.
- 1891** Karl Elsener I establishes the Association of Swiss Master Cutlers and delivers the first major supply of soldier's knives to the Swiss Army.
- 1897** The "Original Swiss Officer's and Sports Knife" is patented. It is known around the world today as the Original Swiss Army Knife™.
- 1909** In memoriam of his mother, Karl Elsener I chooses her first name Victoria as the brand name and registers the emblem with the Cross&Shield as a trademark. Today it is a registered trademark in over 120 countries.
- 1921** The invention of stainless steel (Inox) is a highly significant development for the cutlery industry. The combination of the two words "Inox" and "Victoria" results in today's company and brand name – Victorinox.
- 1931** Carl Elsener II introduces automation. In 1931, Brown Boveri is commissioned to set up the world's first all-electric hardening plant in Ibach. This guarantees that all knives are of a consistent high quality.
- 1945** US soldiers stationed in Europe after World War Two buy it in large quantities and it is a popular souvenir to take home.
- 1950** Carl Elsener III takes over the company management.
- 1977** The Original Swiss Army Knife™ becomes an exhibit for design at the Museum of Modern Art in New York.
- 1979** Transformation of sole proprietorship "Messerfabrik Karl Elsener" into the family-owned company "Victorinox AG".
- 1984** The company doubles its manufacturing and office space.
- 1989** Market entry for "Watches" under its Swiss Army brand in North America with its former U.S. sales partner.
- 1993** Opening of the first sales subsidiary in Japan.
- 1994** Establishment of Carl and Elise Elsener Gut Foundation with the mission to support national and international charitable projects.
- 1999** Market entry for "Travel Gear" with the American TRG Group as licensee.
- 2000** Establishment of the Victorinox Foundation which holds 90 % of the share capital of Victorinox AG. The remaining 10 % belong to the non-profit Carl and Elise Elsener-Gut Foundation.
- 2001** Launch of a clothing line in the U.S. and opening of the first Victorinox store in Soho, New York.
- 2005** Acquisition of the long-standing Swiss Knife and watch manufacturer Wenger SA in Delémont. Wenger remains an independently operating subsidiary of Victorinox.

Nenad Mlinarevic, Swiss Chef and brand ambassador for household and professional knives

Watches since 1989

Travel Gear since 1999

Fragrances since 2007

2022: 125 Years SAK Anniversary

- 2007** Carl Elsener IV takes over the company management and further expands Victorinox as a global multi-product brand.
Establishment of Victorinox Swiss Army Fragrance AG.
- 2008** Opening of the first European Victorinox flagship store in London.
- 2011** Opening of the Swiss Knife Valley Visitor Center in Brunnen, Switzerland.
- 2013** Integration of the Wenger Knife business into the Victorinox brand.
- 2014** Acquisition of the travel gear business from previous licensee and establishment of the new business unit Victorinox Travel Gear AG.
Opening of a store at a prime location in the city center of Zurich.
- 2016** Construction of the Watch Competence Center in Delémont, Switzerland.
- 2017** Discontinuation of Apparel to focus on the core product categories. Production of 500-millionth Original Swiss Army Knife™.
- 2020** Opening of the new distribution center in Seewen, Switzerland.
Acquisition of Zena Swiss AG, traditional Swiss manufacturer of the economy peeler.
Opening of first European Victorinox Franchise Store in Vienna
- 2022** 125th Anniversary of the "Original Swiss Officer's and Sports Knife"

SWISS BRAND OUR STORY

When our founder Karl Elsener opened his cutler's workshop in 1884 in Ibach, Switzerland, little did he know that the Swiss Army Knife™ he would soon create would become a global icon of preparedness, not only finding its way into everyday life but even into outer space.

But that's just how life goes: You never know what's coming. All you can do is make sure you are best prepared for whatever comes your way.

Living up to our legacy as Makers of the Original Swiss Army Knife™, we at Victorinox have made it our mission to do exactly that. To best prepare you for everyday challenges.

That's why we responsibly seek well-thought-out solutions that simply serve their purpose expertly. Why we effectively and efficiently deliver uncompromising quality down to the last detail and pursue excellence in everything we do. And why we deliver reliability and authentically Swiss mastery.

So that every single product that bears our famous Cross&Shield – from our Swiss Army Knives and Cutlery to our Watches, Travel Gear and Fragrances – is crafted to perfection.

We do this because we truly believe

BEING PREPARED MAKES LIFE BETTER.

WHAT OUR BRAND STANDS FOR

How do we help people prepare for whatever comes their way? Through smart and masterful solutions. Because this is how we work and live ourselves.

And that is why we deliver reliability and authentically Swiss mastery in every Original Swiss Army Knife™ we create, and are dedicated to uncompromising precision and quality, down to the very last detail. The iconic design of our pocket knives follows function – every tool is engineered with expert multifunctionality to serve its purpose

BEST-PREPARED

We help our consumers to be best prepared to solve all kinds of tricky tasks in their everyday life – thanks to the intelligent functionality in our compact, portable and versatile premium products. That's why we are recognized as the market leader.

SMART

Our pocket knives and tools are carefully thought-out, to be the solution for any challenge with the precision-engineered and easy to use functions. Their iconic design is recognized by museums around the world, and can be personalized to match a style and character.

MASTERFUL

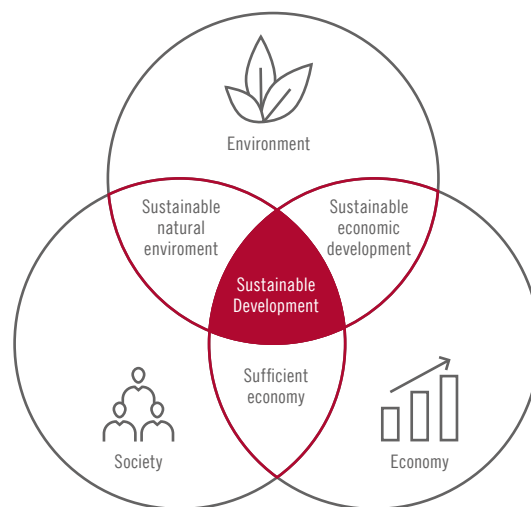

We strive for excellence in everything we do and pursue the best quality in our products. Thanks to over a century of expertise, our knives and tools are Swiss made using best-in-class materials. This lets us offer consumers a lifetime warranty*.

*not all products/accessories are made in Switzerland

WHAT WE DO FOR SUSTAINABILITY

**WE ARE COMMITTED TO INNOVATION, TO CONTINUOUSLY
IMPROVING OUR CONTRIBUTION TO A BETTER WORLD**

ENVIRONMENTAL – CAREFUL USE OF RESOURCES

We care about the environment, and we reflect that in every aspect of our business. Like using resources wisely to reduce our environmental impact:

Product development: recycled materials for high-quality products

Our core product, the Swiss Army Knife™, is made of up to 85% recycled steel, depending on the availability of scrap steel. Based on this, we are gradually transferring the use of recycled materials to our other product categories.

Product packaging: minimal and recyclable

The guiding principle for our packaging is to use only as much as absolutely necessary. A significant portion is recyclable. We use up to 90% recovered paper in our cardboard packaging, ensuring it's made from 100% chlorine-free bleached paper.

Product lifecycle: long-lasting and repairable

We are so confident about the high quality of our products that we offer a lifetime warranty on our knives, and the warranties on both our travel gear and watches exceed industry standards. For everything else, we offer comprehensive repair and refurbishing options, so the product's lifetime can be extended as long as possible.

Operations: energy-saving and innovative

Across our production sites and offices in Switzerland, we actively seek to reduce our operational footprint. For example: by optimizing waste heat utilization in our production facilities with heat pumps, and through heat recovery from our ventilation and closed-loop cooling systems, we keep our head office in Ibach and 120 nearby apartments warm.

We're pioneers in recycling grinding sludge, having developed a special process to filter steel residue out of the cooling water. We collect around 600 tons of grinding sludge and up to 1,000 tons of scrap steel each year at our premises, returning it to the plant so it can be re-made into steel.

We've installed photovoltaic panels at our Swiss sites, which partially power our facilities while compensating for around 500 tonnes of CO₂ per year.

SOCIAL – STRONG COMMITMENT TO SOLID VALUES AND BUSINESS ETHICS

We are a family business with a long history and a clear vision. Our values guide everything we do, from how we treat our employees, partners, suppliers, colleagues and customers, to how we contribute to society and the environment:

- **Employees:** attractive jobs, fair salary, generous benefits and training opportunities
- **Partners and suppliers:** long-term partnerships, genuine commitment to social and environmental responsibility
- **Support for the Global Climate Expedition:** inspiring young people to save our planet

ECONOMIC – SECURING THE FUTURE OF THE COMPANY

We are an independent family company with a sustainable approach. We have taken steps to ensure the long-term stability and success of our company:

Victorinox Corporate Foundation: resolving succession issues and protecting jobs

Victorinox AG is an independent family company. The Victorinox Corporate Foundation was created in 2000 to resolve future succession issues, secure the company during unfavorable economic times and protect jobs in the long term.

Carl and Elise Elsener-Gut Foundation: supporting charitable projects

The Victorinox Corporate Foundation holds 90% of company shares. The remaining 10% are held by the non-profit Carl and Elise Elsener-Gut Foundation, which was created by the father of our current CEO and supports selected charitable projects both within Switzerland and abroad.

“ Living up to our legacy as Makers of the Original Swiss Army Knife™, our aim naturally is to be successful over the long term by providing compelling products and services on the global market. But protecting and preserving the world for future generations is just as important. We therefore see it as our responsibility to make sure our operations and those of our suppliers support economically, environmentally and socially sustainable goals. ” Carl Elsener, CEO Victorinox AG

SWISS ARMY KNIFE™ SEGMENTATION

We know navigating different product categories can be confusing. Which is why we've simplified our Swiss Army Knife™ portfolio segmentation – so our consumers will be able to find exactly the right knife.

Our consumer-focused structure divides knives into four categories, or segments, depending on where and how they'll be used: Everyday, Outdoor & Sports, Trades & Crafts, and Accessories. Within each category, you'll find subsegments that focus on a specific use.

The **Everyday** segment includes products that make daily life easier, whether that's commuting to work, preparing food or enjoying family time. These are then subdivided into Essentials, Personal Care, and Food and Drink. They feature functions like a simple blade, nail file, USB stick, bottle opener, cheese blade and corkscrew.

The **Outdoor & Sports** segment is divided into Outdoor and Sports. These are knives for activities such as hiking, camping, wood carving with kids, hunting and sailing. Here you'll find specific functions like a wood saw, gutting blade and marlin spike.

TRADES & CRAFTS

Within the **Trades & Crafts** segment are the subsegments Trades & Crafts, and Gardening. These products build, cut, mend and create with precision and skill, with tools like pliers, a metal file, a pruning blade, bits and flower knives to meet any craft challenge.

Finally, the **Accessories** segment contains four subsegments: Pouches, Chains & Paracords, Knife Care, and Books. Products in this segment perfectly complement and enhance Swiss Army Knives and multi-tools.

Our intuitive structure means our consumers can logically work their way through the segments to find the product they are looking for. They need to establish only where and how the knife will be used, to locate the ideal one. Simple.

ACCESSORIES

SWISS ARMY KNIVES

SUB-SEGMENTS

EVERYDAY

Essentials

The iconic originals, the classic pocket knives that go with you everywhere, every day.

Personal Care

The companions for simple grooming, whenever and wherever you need them.

Food & Drink

The pocket knives that make sure you're prepared for every snack and gourmet treat.

OUTDOOR & SPORTS

Outdoor

The must-haves with the strength and functionality to take on the dynamic of the natural outdoors.

Sports

The pocket knives that enhance outdoor sports with durable, reliable tools and functions.

TRADES & CRAFTS

Trades & Crafts

The smart tools with a multitude of functions, for everyone who loves to build, mend, improve and create.

Gardening

The green thumb cultivators, for creating stunning floral displays and mastering any horticultural task.

ACCESSORIES

Pouches

The pouches that keep our multi-tools and pocket knives safe, protected and right where you need them.

Chains & Paracords

The smart little extras that make our pocket knives and tools easy to carry.

Knife Care

The accessories that enhance and maintain all our multi-tools.

Books

The expert guides that offer everything from basic carving techniques to bushcraft tips.

STAINLESS STEEL

All pocket knife blades, springs and tools are made from stainless steel. Making a blade that offers optimum functionality and durability requires the right steel alloy. The steel must ensure excellent edge retention and sufficient resistance to rust, but should also be flexible so that it does not break during use.

The following steel alloys are used for our Swiss Army Knives:

MATERIAL NO.	COMPONENT	ABBREVIATION AISI	C (%)	CR (%)	MO (%)	V (%)
1.4110	blade	X 55 Cr Mo14	0.48–0.60	13.0–15.0	0.50–0.80	≤ 0.15
1.4021	spring	X 20 Cr13	0.16–0.25	12.0–14.0		
1.4031	tools	X 39Cr 13	0.36–0.42	12.5–14.5		0.1–0.2

All Victorinox alloys are in accordance with Regulation (EU) no. 1935/2004 for products that come into contact with food.

SCALE MATERIALS

MATERIAL	DESCRIPTION
Cellidor 	<p>Cellidor is an organic, thermoplastic cellulose ester that incorporates a high proportion of renewable natural cellulose material. Unlike traditional plastics, it is only partially dependent on fossil fuels. Components made of Cellidor exhibit an exceptional high-gloss finish with perfect depth effect. To improve abrasion and scratch-resistance, scales printed with a special promotional motif are treated with a protective coating.</p> <p>Max. usable temperature 65 °C.</p>
Acrylonitrile butadiene styren 	<p>Acrylonitrile butadiene styrene is an amorphous thermoplastic. ABS plastics exhibit excellent toughness, notched impact strength, impact strength, flexural rigidity and surface hardness.</p> <p>Max. usable temperature 80 °C.</p>
Polyamide 	<p>Nylon is a term commonly used primarily in the U.S. to describe polyamides (PA). Polyamides are suitable for pocket knife scales because they exhibit better mechanical abrasion resistance. This also has benefits from a production perspective. Compared to high-gloss and smooth Cellidor components, they have a more structured surface.</p> <p>Max. usable temperature 90 °C.</p>
Aluminium 	<p>Alox scales are punched from aluminium, embossed and then anodised in a subsequent process stage. The Eloxal process uses anodic oxidation to create a protective layer. This layer of oxide is hard and protects the scales from damage and corrosion, up to a certain degree.</p>
Walnut Wood 	<p>Wood is a natural, renewable resource. The walnut wood used by Victorinox comes from European forests and complies with the EU Regulation No. 995/2010 (the EU Timber Regulation). The wood of the walnut tree is very solid, tough and strong. Due to its different patterns every piece is unique.</p>
Olive Wood 	<p>Wood is a natural, renewable resource. The olive wood we use at Victorinox is sourced from Italy and complies with the EU Trading Regulation (EUTR) 995/2010 on timber. The wood from the olive tree is very heavy and hard and has good density characteristics.</p>
Micarta 	<p>Micarta is a composite material where an absorbent carrier (cellulose, linen, wood, etc.) is soaked in synthetic resin. After the resin is cured, the Micarta is polished to create the desired finish. If different colored materials are used, the polishing produces a grainy effect. Micarta is a premium material and its waterproof and lightweight properties, plus its dimensional stability, make it the perfect material for the production of knife scales. In addition to its durable and robust characteristics, Micarta is very satisfying to the touch, with an elegant look that is pleasing to the eye.</p>

PACKAGING

There are two types of packaging for pocket knives: Standard packaging and blister packaging.

STANDARD PACKAGING

Standard packaging is defined as folded, sliding and gift boxes, as well as loose products. Standard packaging does not include hanging holes.

EXAMPLE

BLISTER PACKAGING

All blister packaging can be hung up thanks to the built-in hanging hole. The last part of the article number of products in blister packaging includes the designation "B1".

EXAMPLE

FUNCTIONS AND APPLICATIONS

Be best prepared for every situation with the Swiss Champ. The top model among the "Original Swiss Army Knives" combines high quality tools with 33 functions and an award winning design.

It is made of 64 individual parts and requires an astonishing 450 steps of fabrication in Ibach-Schwyz, Switzerland.

OUTDOOR & SPORTS

EXPERT KNIVES FOR OUTDOOR ACTIVITIES

- Strong, reliable knives with clever functions
- Ensure you're prepared for outdoor and sporting activities
- Designed and developed by experts to deliver high performance

From rugged terrain to tranquil countryside, the Outdoor & Sports segment houses our knives that are designed for activities in the fresh air. With a wide assortment for outdoor activities, like fishing, camping or hiking, as well as for sports like hunting, sailing or golf, it's the perfect choice for those seeking reenergizing outdoor experiences and a connection with nature. Whether your consumer needs a dedicated blade for gutting or a woodsaw for bushcrafting or carving with their kids, there's an effective tool waiting to lead the way.

ACCESSORIES

CLEVER ACCESSORIES FOR POCKET KNIVES

- Practical gadgets that provide additional benefits
- Offer well-thought-out enhancements for a pocket knife
- Cleverly designed with both functionality and style in mind

Featuring cleverly designed pieces, the Accessories segment perfectly complements and enhances each pocket knife or multi-tool. Each product brings valuable extra benefits, whether that's a sleek leather pouch or paracord pendant for safe storage, knife care tools or books with advice on outdoor skills and crafting. Handy, functional and impeccably crafted, these products augment our Swiss Army Knives and ensure your consumer can get the most out of their tools.

TRUE, AUTHENTIC FANS: MEET OUR BRAND AMBASSADOR FELIX IMMLER

Our very own Felix Immler is a trained machine mechanic, social worker and nature educator who works full-time as a pocket knife educator for Victorinox. An avid fan of the outdoors and an advocate for teaching kids early about knife safety, he regularly posts pocket knife and bushcraft videos on his Youtube channel and is the father of three children.

CORPORATE BUSINESS

EVERYONE'S FAVORITE

MULTITOOL: SWISS ARMY KNIVES

Our pocket knives are the perfect way to say “Thank you” to your clients. Put a smile on their face with a personalized edition of our little red pocket knife. Choose from laser engraving, 3D printing, etching and more to add your company's touch to these iconic knives. Your clients and employees will thank you right back.

WARRANTY AND SERVICE

Victorinox AG warrants to the end-user purchaser that the Victorinox product will be free from material or manufacturer defects that appear during the course of normal use of the product.

Your Victorinox product is covered by the Victorinox Lifetime Warranty and the Victorinox Two-Year Warranty as follows:

- The Victorinox **Lifetime Warranty** applies to knives, cutlery and tableware, personal care products, sharpening tools and kitchen utensils. For additional information about the Victorinox Lifetime Warranty (e.g. scope, eligibility, exclusions and limitations, remedy, warranty claim process), scan the QR code.

- The Victorinox **Two-Year Warranty** applies to electronic components, accessories, small leather goods, brand collection and third-party branded products. For additional information about the Victorinox Two-Year Warranty (e.g. scope, eligibility, exclusions and limitations, remedy, warranty claim process), scan the QR code.

REPAIRS-SERVICE

- **If your customer is from Switzerland,** he/she may contact the local dealer or send us the tool, well packed, directly to our repair department.

VICTORINOX AG
Reparatur-Abteilung
Schmiedgasse 57
CH-6438 Ibach-Schwyz

- **If your customer is from Germany, Austria, Belgium or Luxembourg,** he/she may contact the local dealer or send us the tool, well packed, directly to our repair department.

VICTORINOX Deutschland GmbH
Reparatur-Abteilung
Alfred-Nobel-Strasse 5
DE-79761 Waldshut-Tiengen

- **If your customer is NOT from Switzerland, Germany, Austria, Belgium or Luxembourg,** he/she may contact a local Victorinox representative or local dealer. They will be glad to assist your customer.

CLEANING AND CARE

For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely. Add a drop of oil between the blades and the tool casing or springs as well as other friction surfaces.

Mutli-tools should never be cleaned in a dishwasher.

We recommend:
Multi-Tool Oil (item number 4.3302)

Key features:

- Maintains tool mechanics
- Protects against corrosion
- Meets NSF H1 requirements VICTORINOX AG
